## GO LEAN Ltd Energy Policy

This Energy Policy has been compiled to set out **GO LEAN Ltd's** intentions and goals with respect to energy use and management. Its purpose is to help embed efficiency and environmental awareness into everyday business.

### Declaration of Commitment

As part of our environmental strategy, **GO LEAN Ltd** is committed to responsible energy management and will practise energy efficiency throughout our premises, plant and equipment.

### Objectives

The aim of our energy management system is to reduce energy wastage, improve working conditions, minimise environmental damage and raise awareness of sustainable energy issues.

#### GO LEAN Ltd will:

- To control energy consumption to avoid wasted expenses.
- To reduce the environmental impact of our energy consumption.
- To continue to reduce our dependence on fossil fuels by investing in renewable energy.

### Roles and Responsibilities

Our Energy Team is made up of:

- **Chief Executive Officer**
- **Business Administrator**
- **Head of Automation**
- **Graduate Product Design Engineer**

Our Energy Team will carry out the action plan and ensure resources are made available. They will also monitor the energy use of **GO LEAN Ltd** and feedback to the rest of the business.

5.1

## Action Plan

During the coming year, the following energy management activities will be undertaken:

- Promote environmental issues, including energy management, on the agenda for management team meetings.
- Report changes in building use or occupancy times to ensure heating, ventilation, cooling and other services are provided efficiently
- Raise the awareness of employees to the importance of saving energy and build this into normal onboarding training.
